

Better Choices New Mexico supports a balanced approach to addressing New Mexico's budgetary challenges, especially during the recession. We believe relying only on spending cuts would cause the economy and working families even greater harm.

New Mexico faces some clear choices. Do we meet today's needs and invest in future economic growth by preserving education, health care, and public safety programs? Or do we keep providing tax cuts for the richest households and loopholes for out-of-state corporations?

Better Choices Mean

- Preserving jobs and services
- Raising revenue in ways that promote fairness
- Repealing tax cuts for the highest income New Mexicans
- Eliminating corporate tax loopholes to level the playing field for New Mexico's small businesses
- Accountability tied to all corporate tax incentives

A Better New Mexico Means

- A healthy community and a strong, educated workforce, which are the state's best economic development tools
- Adequate resources for schools so students are prepared for opportunities in higher learning and/or in the workforce
- Funding for early childhood education, which prepares students for success

First things First, New Mexico.

Tell our Legislature: *Don't balance the budget on the backs of New Mexico's working families.*

Instead, open the books on tax breaks for special interests, close the loopholes for out-of-state corporations, and roll-back the tax cuts for the wealthy.
